Oferta klamek marki Kuchinox podzielona jest na 3 linie: Economy, Classic i Premium. Co kryje się pod tymi nazwami? Jakie cechy wyróżniają poszczególne z nich?

PREMIUM LINE

Linia Premium to coś dla tych, którzy kochają niepowtarzalny design. Różnorodność wykorzystanych materiałów, bardzo szeroka gama wykończeń, efektowne wzory i polskie projekty to tylko niektóre z cech, za które doceniane są te modele. Podkreślić trzeba też innowacyjne rozwiązania montażowe. Dzięki temu wszystkiemu produkty Premium zaspokajają najbardziej wyrafinowane gusta i gwarantują najwyższy komfort użytkowania. Wszystkie nasze klamki są produktami wysokiej jakości. Rozróżnienie wynika z zakresu dodatkowych funkcji czy rozwiązań technologicznych.

CLASSIC LINE

Linia Classic to klasyczna elegancja. Modele, które trafiają pod ten szyld, mają delikatną, stonowaną stylistykę, ale też urozmaiconą kolorystykę. Łatwo je dopasować do różnych typów aranżacji, doceniane są też za swoją ergonomię.

ECONOMY LINE

Klamki Kuchinox Economy Line to przede wszystkim prosta i funkcjonalna forma. Dzięki temu są one bardzo uniwersalne i pasują do niemal każdego wnętrza i rodzaju drzwi. Równie ważna jest tu też dobra cena, przy jednoczesnej satysfakcjonującej jakości.

Among the offer of Kuchinox handles, 3 lines can be distinguished: Economy, Classic and Premium. What do these names stand for? What features distinguish each of them?

PREMIUM LINE

Premium Line is something for those who love unique design. Diversity of materials used, very wide range of finishes, eye-catching patterns and Polish designs are some of the features which these models are appreciated for. Also innovative assembly solutions should be underlined here. With all this, Premium products satisfy the most refined tastes and guarantee the highest comfort of use. All our handles are high-quality products. It is a range of additional features or technological solutions by which they are distinguished.

CLASSIC LINE

Classic Line is a classic elegance. Models under this sign have a gentle, toned design but also varied colours. They are easy to match with various arrangement types, and appreciated for their ergonomics.

ECONOMY LINE

Economy Line handles by Kuchinox are most of all defined by simplicity and functional form. Therefore they are very universal and suit almost any interior and door type. A good price, going hand in hand with a satisfactory quality, is of equal importance here, as well.

Oferta de mânere a mărcii Kuchinox este împărțită în 3 linii: Economy, Classic și Premium. Ce ascund aceste denumiri? Ce trăsături le disting pe fiecare dintre ele?

PREMIUM LINE

Linia Premium este destinată celor care adoră designul unic. Varietatea de materiale folosite, o gamă foarte largă de finisaje, modele izbitoare și designul polonez sunt doar câteva dintre caracteristicile pentru care aceste modele sunt apreciate. Trebuie evidențiate, de asemenea, soluțiile inovatoare de instalare. Datorită acestui fapt, produsele premium satisfac cele mai rafinate gusturi și garantează cel mai mare confort. Toate mânerele noastre sunt produse de înaltă calitate. Distincția se bazează pe gama de funcții suplimentare sau soluții tehnologice.

CLASSIC LINE

Linia Classic reprezintă eleganța clasică. Modelele care intră sub această siglă au un design fin și discret, dar și o gamă variată de culori. Acestea sunt ușor de montat în diferite tipuri de aranjamente și sunt, de asemenea, apreciate pentru ergonomia lor.

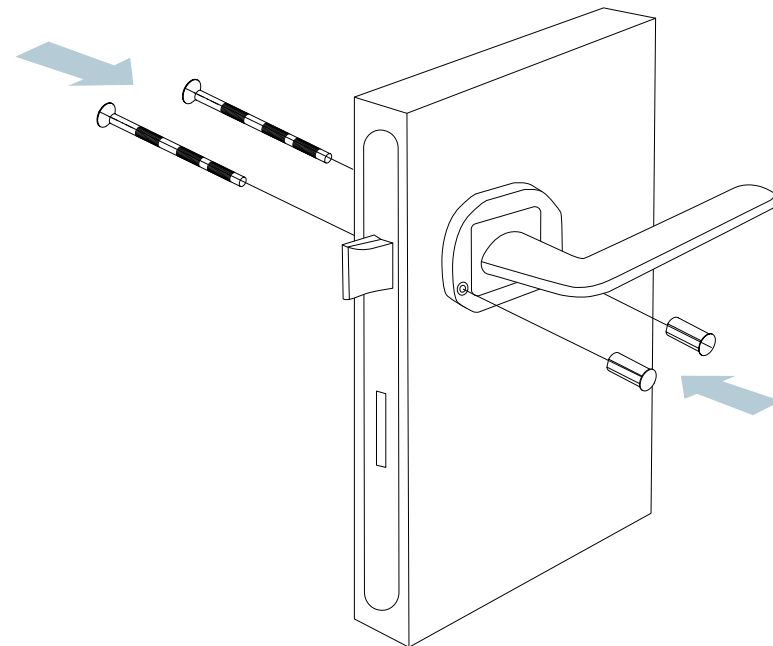

ECONOMY LINE

Mânerele Kuchinox Economy Line au, mai presus de toate, o formă simplă și funcțională. Acest lucru le face foarte versatile și potrivite pentru aproape orice interior și tip de ușă. La fel de important aici este un preț bun, cu o calitate satisfăcătoare în același timp.

Dzięki łatwemu montażowi korpusy klamek mocowane są za pomocą śrub przelotowych, na końcu których zakręca się śrubokrętem lub dłonią kołpak. Mamy tylko dwie śruby, które trzeba ze sobą skrócić z jednej strony drzwi. W standardowym montażu jest łącznik wewnątrz korpusu klamki i drzwi, który należy skrócić z obu stron drzwi.

Thanks to easy assembly, the handle bodies are secured using through bolts, at the end of which you tighten with a screwdriver or hand knob. There are only two screws that need to be fastened together on one side of the door. In the standard assembly, there is an internal connector inside the handle body and the door, which needs to be fastened from both sides of the door.

Datorită montajului simplu, corpurile mânerelor sunt fixate folosind șuruburi trecătoare, la capătul cărora strângeți cu un șurubelniță sau cu o mână de capac. Există doar două șuruburi care trebuie strânse împreună pe o parte a ușii. În montajul standard, există un conector intern în interiorul corpului mânerului și al ușii, care trebuie strâns de ambele părți ale ușii.

WYKOŃCZENIA

Klamki stalowe, stalowe czy aluminiowe wykańczane są na kilka sposobów. Najczęściej spotykane z nich to niklowanie, chromowanie, lakierowanie proszkowe, patynowanie, mosiądzowanie. Powłoki te dostępne są w wersjach matowych i błyszczących. Trwałość każdej z nich jest niemal identyczna, wybór zależy więc od indywidualnego gustu i dopasowania do wnętrza.

Poniżej zostały przedstawione najczęstsze dostępne wykończenia:

FINISHES

Handles made of steel, zamak or aluminium are finished using several methods. The most common of them is nickel plating, chrome plating, powder coating, patination, brass plating. These coatings are available in matt or glossy versions. Durability of each of them is almost identical, and the choice depends on an individual taste and matching with the interior.

Below are the most popular finishes:

FINIȘĂRI

Mănerele din oțel, zinc-aluminiu sau aluminiu sunt finisate în mai multe moduri. Cele mai comune dintre acestea sunt nichelarea, cromarea, acoperirea cu pulbere, patinarea. Aceste acoperiri sunt disponibile în versiuni mate și lucioase. Durabilitatea fiecăruia este aproape identică, astfel încât alegerea depinde de gustul individual și de modul în care se potrivește în interior.

Drzwi, a więc też klamki i zamki, dzielimy na lewe i prawe. Stań przed drzwiami tak, jakbyś chciał wejść do środka pomieszczenia. Jeśli zawias będziesz miał po Twojej lewej stronie – posiadasz drzwi lewe, jeśli po prawej – prawe.

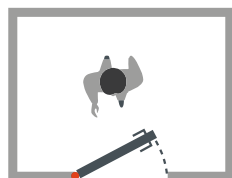

Among doors, as well as handles and locks, left hand and right hand ones can be distinguished. Just stand in front of the door as if you wanted to enter the room. If the hinge is on your left – you have a left side door, and if on your right – a right side door.

Ușile, la fel și mânerele și încuietorile sunt împărțite în uși de stânga și uși de dreapta. Stați în fața ușii ca și cum ați fi pe cale să intrați în cameră. Dacă balamaua este pe partea stângă, aveți o ușă de stânga, iar dacă este pe partea dreaptă, o ușă de dreapta.

INVISIBLE YET RELIABLE LOCK | ÎNCUIETOARE INVIZIBILĂ, DAR FIABILĂ

Klamka łączy dwie funkcje w eleganckiej formie:

- zewnętrzny zamek na klucz,
- wewnętrzna blokada z boku klamki z czytelnym wskaźnikiem zajętości.

Proste i dyskretne rozwiązanie, które sprawdzi się w łazienkach, gabinetach, pokojach hotelowych czy pomieszczeniach prywatnych – bez potrzeby stosowania dodatkowych urządzeń czy elektroniki.

The handle combines two functions in an elegant form:

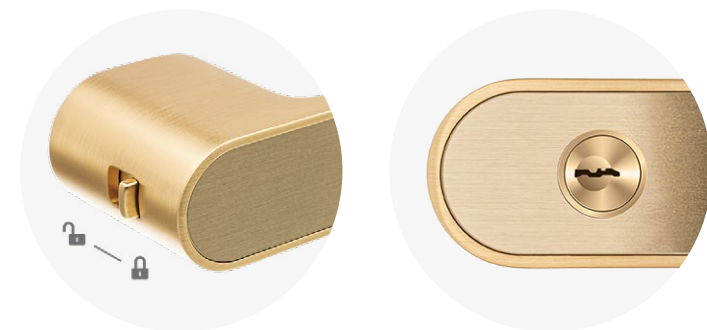

- external key lock,
- internal side lock with a clear occupancy indicator.

A simple and discreet solution, ideal for bathrooms, offices, hotel rooms, or private spaces – without the need for additional devices or electronics.

Clența îmbină două funcții într-o formă elegantă:

- încuietoare exterioară cu cheie,
- blocare interioară laterală cu indicator clar de ocupare.

O soluție simplă și discretă, potrivită pentru băi, birouri, camere de hotel sau spații private – fără necesitatea unor dispozitive sau electronice suplimentare.
